

How life grows and changes

English

In English, we will be revising key concepts we have learnt over the year. We will be writing and performing a shape poem about animals. We will also be learning about the book Fantastic Mr Fox and writing instructions and a narrative.

Phonics

Children will be consolidating tricky words and more challenging graphemes when reading and spelling. We will also be looking at adding suffixes to words.

Computing

In Computing, we will be exploring Scratch Junior. We will be programming and creating a short simple algorithm to make an animation move.

History

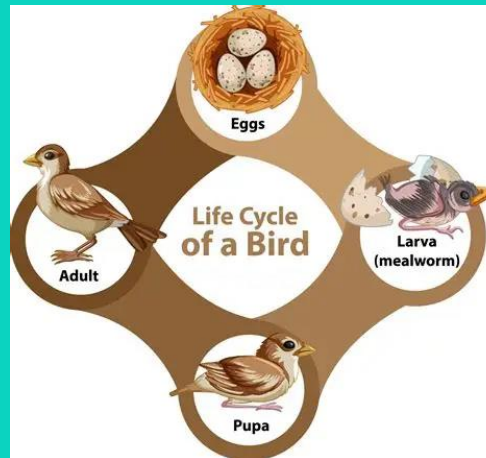

This half term we will learning about how schools have changed over time. We will be comparing schools in the 1900's, schools in the 1970's and now. We will also be looking at how shops and communication has changed over time.

PSHE

In PSHE, our unit is called Safety and the Changing Body. This will cover road, medicine and internet safety, as well as learning about personal boundaries and space.

Reading

Children will continue to develop their reading skills (inference, direct retrieval and building vocabulary) through accessing a range of books. These include; alternative fairy tales, stories and poetry.

PE

In PE, we will be learning about striking and fielding and thinking about tactics we can use in a game situation, as well as practising throwing and catching skills. We will also be learning about fitness. We will be running for longer distances, jumping using a rope and developing our coordination skills.

Science

In Science, we will be learning about what humans need to survive and classifying different foods. We will also be looking at life cycles of humans and animals. We will be learning about how diet and exercise can keep us healthy, as well as personal hygiene.

D&T

In D&T, we will be learning about running stitches and then applying this to join material together to make a puppet.

Music

In music, we will be recapping all the key vocabulary and skills we have learnt this year in our Reflect, Rewind and Replay unit. We will also be performing some of the songs to you at our end of year performance in July!

Maths

In Maths, we will continue learning about time, focussing on o'clock, half past, quarter to and quarter past. We will also be learning about position and direction, as well as capacity, volume and mass. We will then be recapping doubling, halving and division.

Art

In Art, we will be learning about sculptor Alberto Giacometti. We will be using foil and clay to make sculptures in the style of his work.
