

English

Children will be revising sentence level skills, developing their vocabulary and stamina for writing.

Children will write descriptions, recounts and narratives about Chalk, The Happy Lion and the Great Fire of London.

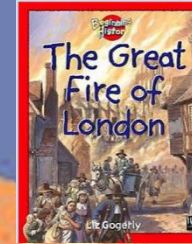

The Great Escape!

Phonics

Children will be revisiting phase 5 sounds, Y1 tricky words and practising segmenting and blending. Children will also be starting to learn Y2 spellings and Y2 tricky words.

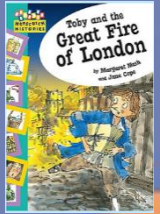

Art

Children will be creating their own London skylines using silhouette and collage techniques. They will also be learning about artist John Michael Wright and sketching portraits.

History

Children will learn about daily life around the time of the Great Fire of London, the main events and changes after the event. They will also learn about the plague and gun powder plot. Children will explore different sources and develop their understanding of chronology and cause and effect.

PSHE

In PSHE, children will be learning about how they can look after their bodies. We will look at how being active makes them feel, why sleep is important, how to make healthy food and drink choices and how to keep their teeth clean and healthy.

Computing

Online Safety

Children will be learning about how to keep safe online and who to speak to if they need help.

They will also be learning about the importance of a good, unique password and creating suitable future passwords.

Music

Children will be learning about musical vocabulary including pulse, pitch, tempo and texture. They will also be learning to play percussion instruments through chanting call and response sound patterns.

Maths

- Identify multiples of 10
- Add and subtract multiples of 10
- Counting and representing numbers 20-99
- Compare, order and partition 2-digit numbers.
- Fluency of addition and subtraction facts within 10 and 20.
- Calculating within 20

PE

Children will be practicing their throwing and catching and other basic ball skills. They will also be developing other skills, such as hopping, skipping, dodging and balancing.

Science

Uses of Everyday Materials

Children will be learning about different materials and looking at the suitability of materials for particular uses. Children will be investigating different materials strength and stretchiness and recognising that the shape of some solid objects can be changed.
