Monday 28th September

Dear Parent / Carer,

Year 1 – Toy Car Garage Building

As part of their Design & Technology learning this half-term, children have been exploring structures and they will be making car garages. To make the learning more memorable for the children, we would like to welcome parents and carers on Tuesday 13th October at 2pm in the lower school hall to make the structures.

Children will need a cardboard box as the base and any other craft items they wish, such as lollypop sticks and pipe cleaners. Please bring the boxes in on the day, unless you are unable to attend, then send them in with your child. We will provide tape, glue and some other basic supplies such as coloured paper.

The activity will last around 40 minutes. Please enter through the breakfast club door. Please also be aware that due to safeguarding, phones must not be used during this event and should be kept away at all times.

If you have any questions, please do not hesitate to contact your child's class teacher.

Yours sincerely,

Year 1 Team
